

Facility Upload Form

Use this form is used to advise us of the facilities you'd like to view on your ATG portal. Please provide the required information and send this to either your Liquip Victoria Account Manager or scan and e-mail directly to sales@liquipvictoria.com.au for processing. Once facilities have been uploaded to the portal the portal administrator will be advised.

TANK PARAMETRE SETTINGS

When listing tanks in your portal try and match the tank numbers to the tank numbers at your facility. This will assist with easier identification when using the portal viewing platform. Complete the tank information for each tank you require to view at this facility by filling in the fields below. The tank order you assign here will be mirrored in the portal. If you have an empty or unused tank at your facility, and wish for it to be listed, please write EMPTY in the 'tank contents' field so it can be assigned to the portal for future use. You may also nominate a 'Low Level Alert' volume for any tank. By completing this field nominated users can then receive an automated e-mail alert advising that the tank level has fallen to this volume and requires a planned response.

TANK 1

Tank contents* (eg. fuel type):

Max Capacity (L):

Safe Fill Level (L):

Minimum Level (L):

Low Level Alert (L):
